“Whereas, Gov. Altgeld has pardoned Schwab, Neebe and Fielden, who were as Anarchists confined in the penitentiary; and

“Whereas, he has stated, his motives for doing so; therefore be it

“RESOLVED, That we, the delegates of the Socialist Labor Party, take this opportunity to express our admiration for Gov. Altgeld of Illinois, because of his frank and courageous statement of the reasons for which he exercised his prerogative in said case. We have, during the past years so often declared our strong opposition to Anarchistic logic and principles, and have done so in such vigorous and unmistakable terms, that we deem a repetition unnecessary; nevertheless, we have not failed to see in the trial and the conviction of the Anarchists, not the justice which is meted out to the meanest criminal, but the result of that class hatred and class justice, which at all times has been most cruel. There is nothing new to the student of history in the fact that when classes are arrayed against each other the ordinary forms of criminal procedure are
resorted to in order to cover up persecution; that in such cases opinions and the expressions of opinions, and not the actual perpetration of crime is punished, and that malice and hatred are clothed in the garb of ‘Justice.’ Contemporaries who are blinded by prejudice and class feeling are unable to see this, and may, unconsciously, act in the honest belief of being just. But if shortly afterward a man in the official capacity of Governor lays bare the injustice committed under the strong feeling of that time, and has the courage to encounter strong prejudices he deserves commendation and admiration.”

The resolution was adopted, and it was decided to print Gov. Altgeld’s Statement, subjoining the resolution, as a pamphlet for agitation.

Committee be removed from Brooklyn and vicinity; and that, to further promote a unification, copies of the proceedings of this Convention be transmitted to the Cincinnati and Independent Sections. We further recommend that in the event of a unification, the property of all these elements be taken charge of by the Party.” Mrs. Reinstein and P.
